

Datasheet: EMX Emergency Backup Light

Product Code: 20258NLS

Features

- Cutout 70mm up to 130mm using extra plate enclosed
- LED indicator with test switch provided
- 120 minutes discharging time when normal power fails
- AS/NZS 2293 compliant and certified
- Suitable for damp locations
- Super bright LED output
- LiFePO4 (Lithium) Battery
- 3 Years Warranty
- Open and Corridor Lens

Specifications

Parameter	Value
Compliance	AS/NZS 2293
Input Voltage	220–240V, 50Hz
Protection	Overcharge and over-discharge
Conversion Time	≤ 0.2 seconds
Ingress Protection	IP20
Operating Temperature	0°C to 40°C
Battery	LiFePO4 (Lithium)
LED Type	SMD Super Bright LED
Discharge Duration	120 minutes

Important

- Must be installed by a qualified electrician.
- Ensure power is off prior to any electrical work.
- National Light Sources supply the highest quality products using the latest technology for longer life and reliability.
