Gripit Plasterboard Anchors are designed for use with all types of plasterboard installations. Using their uniquely designed slim gripping wings, the Gripit Anchors folds out in the gap behind the plasterboard to create a vice like grip and distribute weight more effectively than conventional anchors or plugs.

BENEFITS

- Suitable for all plasterboard types (10mm to 13mm)
- No need for battening or additional anchor points
- Works on Dot & Dab, double thickness and insulated plasterboard (undercutting tool required)
- Removable and reusable

Fit with a drill and screwdriver, simply...

BASIC PERFORMANCE DATA

Shear

Weight suspended from a fixing, mounted in a vertical wall with a load or weight attached to that fixing and acting vertically downwards.
