Pica Fine Dry® Longlife Automatic Pencil 0.9

HIGH-PRECISION

**Pica Fine Dry®
Longlife Automatic Pencil 0.9**

NEW: Precision without sharpening

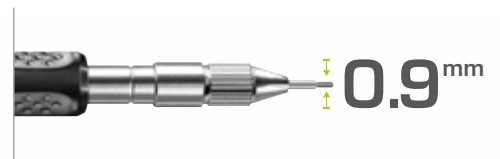

- The special lead diameter of only 0.9 mm is ideal for fine and precise marking, without sharpening
- With effective dust and water protection: push button as umbrella cap and sealing ring on barrel
- Barrel with roll stop
- Its integrated large eraser enables quick correction of markings
- Sustainable due to refillability with different leads
- Equipped with 5 graphite leads in HB
- The slim lead guide tube at the front end of the pencil can be unscrewed in case of lead breakage in order to remove lead residues

High-tech push mechanism:

- for automatic lead feed
- for a long-lasting lead holding power

Practical quiver cap for perfect one-handed handling:

- made of extremely robust special plastic
- with extra strong clip
- for a long-term use

Can also be ordered as SB

Ø = 0,9 mm
L = 60 mm

Pica Fine Dry® refills 0.9

Refills in two different degrees of hardness for different applications:

7030 Graphite lead HB

For most surfaces

Lead box with 24 leads 0.9, HB

- Special hardness HB for fine markings
- Not suitable for smooth and glossy surfaces

7050 Graphite lead H

For highest precision

Lead box with 24 leads 0.9, H

- Extra hard lead for joiners for most precise markings
- Not suitable for smooth and glossy surfaces

Note

Always refill leads from the back end – this maintains the mechanism and extends the lead holding power!

Strong product presentation for your consulting counter

Stand alone in the display, or in best company with other Pica fast movers, in a PICA COMPETENCE CENTER

7020 Display Pica Fine Dry®
 20 Pica Fine Dry® markers incl. 5 graphite leads HB
