## RCBO 1M 1P+N 6kA C-10A 10mA A

## **Technical properties**

| Teelinean properties  |                               |
|---|-------------------------------|
| Architecture  |                               |
| Neutral position  | right                         |
| Number of protected poles   | 1                             |
| Number of poles   | 2 P                           |
| Type of pole  | 1P+N                          |
| Fixing mode   | DIN rail type O (symmetrical) |
| Curve   | С                             |
| Configuration   |                               |
| Number of modules   | 1                             |
| Connectivity  |                               |
| Top connection alignement for modular devices                     | Shifted terminal              |
| Bottom connection alignement for modular devices                  | Aligned terminal              |
| Main electrical features  |                               |
| Rated short circuit breaking capacity Icn AC according IEC60898-1 | 6 kA                          |
| Rated operational voltage Ue                                      | 230 / 240 V                   |
| Type of supply voltage  | AC                            |
| Frequency   | 50 Hz                         |
| Voltage   |                               |
| Rated insulation voltage  | 440 V                         |
| Max operating voltage   | 264 V                         |
| Rated impulse withstand voltage                                   | 4 kV                          |
| Electric current  |                               |
| Rated residual operating current                                  | 10 mA                         |
| Rated current   | 10 A                          |
| Withstand not tripping on 8-20 μs wave                            | 0.2 kA                        |
| Breaking and opening capacity                                     | 4.5 kA                        |
| min/maxi threshold value of the AC thermal operation              | 1.13 / 1.45 ln                |
| Magnetic regulating currrent                                      | 5 / 10 In                     |
| Electric current / temperature                                    |                               |
|   |                               |

| Rating current 65°C   | 8.5 A      |
| Rating current 70°C   | 8.3 A      |
|   |            |
| Dimensions  |            |
| Depth of installed product  | 70 mm      |
| Height of installed product   | 85 mm      |
| Width of installed product  | 17.7 mm    |
| Frequency   |            |
| Frequency   | 50 Hz      |
| Power   |            |
| Total power loss under IN   | 4.04 W     |
| Power loss per pole at In   | 2.13 W     |
| - Conc. 1888 per pere de  | 2.23       |
| Endurance   |            |
| Electric endurance in number of cycles                                | 10000      |
| Number of mechanical operations                                       | 20000      |
| Installation, mounting  |            |
| Type of top connection for modular devices                            | with screw |
| Type of bottom rail clip for modular devices                          | plastic    |
| Type of Bottom Connection for modular                                 |            |
| devices   | Blconnect  |
| Top removability for modular devices                                  | No         |
| Bottom removability for modular devices                               | Yes        |
| Suitable for flush-mounting   | Yes        |
| Connection  |            |
| Connection cross-section at output with screw, for flexible conductor | 1 / 10 mm² |
| Connection cross-section at output with screw, for massive conductor  | 1 / 16 mm² |
| Connection cross-section for rigid                                    | 2.120      |
| conductor, upstream terminals with screws                             | 1 / 16 mm² |

| screws, with flexible conductor  Downstream cage clamp delivery status  |                             |
|---|-----------------------------|
| Downstream cage clamp delivery status   | 1 / 10 mm <sup>2</sup>      |
|   | opened                      |
| Upstream cage clamp delivery status   | opened                      |
| Connection cross-section of input and output with screws, for massive conductors  | 1 / 16 mm <sup>2</sup>      |
| Connection cross section of access and exit with screws, for flexible conductor   | 1 / 10 mm <sup>2</sup>      |
| Cable   |                             |
| Length of conductors used for the heating test (m) according to product standard  | 1 m                         |
| Conductor cross-section used for heating test(mm²) according to product standard  | 1.5 mm                      |
| Equipment   |                             |
| Quick connect   | no                          |
| Type selective  | No                          |
| Can be accessorized   | No                          |
| With transparent product label holder   | Yes                         |
| Standards   |                             |
| Standard text   | IEC 61009-1; AS/NZS 61009-1 |
| European directive WEEE   | concerned                   |
| Safety  |                             |
| Protection index IP   | IP20                        |
| Residual current type   | Į.                          |
| REACH conform   | No                          |
| Halogen free  | No                          |
| Use conditions  |                             |
| Operating temperature   | -2570 °C                    |
| Degree of pollution according to IEC 60664 /<br>IEC 60947-2   | 2                           |
| Class of energy limitation I²t  | 3                           |
| Altitude  | 2000 m                      |
| Storage/transport temperature   | -2580 °C                    |
| temperatur  |                             |
| Temperature of calibration  | 30 °C                       |
| Ambient air temperature during heating test according to the product standard   | 24.8 °(                     |
| Max. admissible temperature on accessible parts (intended to be touched)  | 58.2 °C                     |
| Max. admissible temperature on accessible   | 46.7 °C                     |
| parts (manual operating means)  | 67.4 °C                     |
| · · · · · · · · · · · · · · · · · · ·   |                             |
| parts (manual operating means)  Max. admissible temperature on access. parts (not touched for normal operation)  Max. admissible temperature on terminals | 62.5 °C                     |
| Max. admissible temperature on access. parts (not touched for normal operation)   |                             |

| Temp.rise limits for access. parts (to be touched) according to product standard | 40 K   |
|--|--------|
| Temperature-rise limits for terminals according to the product standard          | 65 K   |
| Temperature-rise measured on accessible parts at In (manual operating means)     | 6.7 K  |
| Temperature-rise measured on access. parts at In (not touched normal operation)  | 27.4 K |
| Temperature-rise measured on accessible parts at In (intended to be touched)     | 18.2 K |
| Temperature-rise measured on terminals at In                                     | 22.5 K |
