

Uncoated Stainless Steel Cable Ties

- Stainless steel cable tie with unique ball locking mechanism allows the cable tie to be quickly and easily installed
- 2 Grades of stainless steel ties available – 316 = prefix SS & 304 = prefix SS304
- Installation is much easier and quicker than traditional metal strapping systems
- Stainless steel cable ties are suitable for environmentally harsh conditions including outdoors, underground, marine oil rigs etc.
- Stainless steel cables ties superior corrosion resistance
- Strong and durable tie for bundling applications in all environmental conditions
- Especially durable against water or salt spray
- Easy installation by hand or cable tie gun, WATSSCTG
- Fire Rating - WS52W to AS/NZ:3013.

Coated Stainless Steel Cable Ties

- Stainless steel cable tie with unique ball locking mechanism allows the cable tie to be quickly and easily installed
- 2 Grades of stainless steel ties available – 316 = prefix SS & 304 = prefix SS304
- Installation is much easier and quicker than traditional metal strapping systems
- Stainless steel cable ties are suitable for environmentally harsh conditions including outdoors, underground, marine oil rigs etc.
- Stainless steel cables ties superior corrosion resistance
- Strong and durable tie for bundling applications in all environmental conditions
- Especially durable against water or salt spray
- Easy installation by hand or cable tie gun, WATSSCTG
- Provides excellent resistance to chemical and salt spray
- Coating provides extra protection to cables to help prevent damage
- Coating also provides additional insulation between cable tie bundle materials
- Low smoke and halogen free
- UV Stabilized (coated only)
- Fire Rating - WS52W to AS/NZ:3013.
