

DISC-300

Exterior LED Ceiling Light

Description

The surface mounted DISC-300 features a polycarbonate body and opal diffuser with a decorative aluminium round trim. A special chromate process is applied to the aluminium trim before polyester powder-coating completes the finish. This helps to further protect the IP54 rated DISC-300 from harsh environments.

The DISC-300 features amazing illumination with minimal power consumption; a total of 30W of high intensity illumination with the ability of dimming using the EV-DIMMER (optional). The DISC-300 offers the flexibility in application ranging from outdoor entertaining through to illuminating interior spaces such as the living room, family room or bedrooms.

Specification Features

- Input Voltage: 240V AC
- Power (W): 30W
- IP rating (IP): 54
