

The Hills Antenna FB607312 Starlink Adaptor is designed to fit many of our Satellite mounts. The Adaptor fits inside the existing pole of a Hills Antenna Satellite Mount. It allows a Gen 2 Starlink Pole to easily and securely click into place. The all steel zinc coated finish ensures a quality robust part that will allow for a secure fitting for many years.

FB607237A / FB607238A Gutter Mount
Hot Dip Gal Finish

FB607042A Fleximount
Pre Gal Finish

Installation Note:

It is recommended that the FB607312 Adaptor be fixed into place using a self drilling screw or rivet. Care should be taken not to damage the cable if it is installed inside the pole. If installing into a Hot Dip Gal finish mount, it may be necessary to file clean any slag that may be inside the pole.
