LED AC Low Glare Flood IP66

New technology utilizing SMD2835 AC LEDs in a Matrix array to improve performance and control unwanted light spill and glare.

High IP protection at IP66 and fitted with moisture valve to eliminate lens fogging
Suitable for both residential and commercial applications

KEY FEATURES

- Complete with 1.0M flex ready for quick installation
- Suitable to operate with motion sensors
- Instant on off no cooling re strike time
- AC 2835 LEDs
- LED Life 50,000hrs
- Tempered safety glass
- Stainless Steel screws
- Excellent light and glare control
- Compact Size
- Light Weight
- IES Files (Refer Website)
- Aluminium body
- Pressure valve to control moisture inside
- Weight : 3.2kg
