

[DESCRIPTION]

WALL SWITCHES

The slimline GEO Series is a part of Connected Switchgear switches and socket outlets, with a stylish geometric shape and only 6.5mm thick. Manufactured from virgin polycarbonate material so it won't fade over time. Switch mechanisms allow for two way switching and are rated at 250V AC 10AX. Switch contacts are made from a composite silver nickel coating to prevent arcing. The terminal and terminal screws are made from solid brass. GEO Series products are available in white, black and matte black with optional brass or aluminium cover plates.

[FEATURES]

- Slimline 6.5mm Thick
- 2 Way Switching
- Polycarbonate Material
- Copper Phosphorus Bronze Internal Components
- Composite Silver Nickel Switch Contacts
- Brass Terminal and Terminal Screws
- Adequate Sized Rear Terminals
- Available in 1-6 Gang

[TECHNICAL PARAMETERS]

- Rated Voltage: 250V AC
- Rated Frequency: 50/60Hz
- Overall Plate Size: 115mm x 77mm
- Cut Out Size: 76mm x 55mm
- Complies with: AS/NZS 3100:2017+A1-3
AS/NZS 3133:2013+A1-2

[APPROVALS]

SAA Approved
