

High Voltage Proximity Tester - Volt Safety

Volt's High Voltage Proximity Tester detects voltage without touching the voltage source and informs the operator audibly and visually. Detects voltages from 240V to 275kV and is suitable for Indoor and Outdoor use.

Key Features:

- Voltage source detection values: 240V, 1kV, 3.3kV, 6.6kV, 11kV, 22kV, 33kV, 66kV, 132kV, 275kV
- Size: 24.5cm x 10cm x 10cm
- Colour: Orange
- Weight: 600g
- Operating Temperature: -15C - 55C
- Suitable to combine with most insulated sticks
- Self test function to verify tester is working appropriately
- Easy selection wheel to change voltage source detection value
- Loud buzzer sound to allow for audible detection of voltage source
- Bright red detection light allows for visual detection of voltage source in noisy environments
- Comes with 3 x C batteries and a water resistant leather bag to ensure on-site readiness
