

# Entertainment Plates

The **NEW** plate style for Television and Entertainment Areas.

Gone are the needs for standard plate and grid with TV, Data and HDMI built by the contractor coming out at right angles to achieve a true flush mounted television installation. This is the new parallel wall solution - populated or unpopulated for your convenience.

Available Now through your Electrical Wholesaler

Trader's Puma Entertainment Plate has arrived and is ready for use by Australian Electrical Contractors. Finally a practical design has arrived to house all of the modern day connections for your entertainment areas including TV, Data and HDMI for your next television or entertainment area installation.

No longer do Electrical Contractors have to buy a standard blank plate and grid and make to up their own makeshift television and entertainment needs. Until now you had to buy separately the:

- Blank Plate and Grid (PUSWPV3G or C2033VH\*)
- Data - Data Jack (MERJ6CM or 30RJ45SMA6\*)
- TV - Foxtel Approved Connection (METVFFA90FX or 3105FFFMR\*)
- HDMI - HDMI Lead (Various Brands) – Hangs out of the blank aperture.

You have to do all the work in building a solution and it is not a practical fit off. The current method sees connections coming out at **awkward right angles** and the contractor having to buy all the separate parts (those listed above). There has to be a better way. Now there is.

## Introducing the PUMA Entertainment Plates

Product comes in two forms, 'Unpopulated' (empty apertures) or 'Populated' (pre populated), our Entertainment plates have been designed to create for easy fit off and all connections populated in the:

**PUENTP3GTVA (Populated)** Comes with Cat6 Data Jack, HDMI (2.0) Flat Ribbon clip in cable and Foxtel approved F-type connector with 90° screwed adaptor.

**PUENTP3G (Empty)** for use with any form of Trader or Clipsal\* style clip in Audio Visual or Data Jack products. For your convenience you can if you need make up your own configuration if you require something different.

- Ideal for applications in office computer network installations.
- Perfect for Home Theatres where audio visual components and equipment are remote from screens or televisions.
- Cabling remains neat and tidy hidden in the wall panel with minimal visual clutter.
- Cabling plugs in parallel with the wall and does not protrude out past the television screen and remain hidden.
- Applications on computer hubs for neat tidy network cabling.
- Clip in window plate is separate and easy to terminate data and TV mechs into prior to assembling to the wall plate.
- PUMA style cover finally finishes the appearance.

**TRADER**®  
100 Years of Gerard Electrical Tradition

**PU** = Puma    **ENT** = Entertainment    **P** = Plate    **3G** = 3 GANG  
**TVA** – Television Accessories (Foxtel TV, Cat 6 Data and HDMI 2.0 all included)
