Trader's Puma has arrived - our familiar range of switches and sockets are ready for use by Australian Electrical Contractors.

What Puma can do for you:

- Fits standard mounting accessories.
- Screw fastened base plate (others have moved to a clip on base).
- Interchangeable - Mix n' match with other brands.
- Cable Clamp Feature - unique cable securing point may eliminate need for a shroud (Cable clamp restraint point satisfies requirement of AS/NZS3000:2007 Clause 5.4.6.1).
- Individually packaged with product label and barcode.
- Terminals are large and in line for ease of installation.
- Yellowing Resistant - made from Polycarbonate (Not ABS) which means cover plates resist discolouration. Trader switches and sockets are made from 100% Virgin Polycarbonate.
- Products are fully certified and compliant with Australian standards (Ask us for technical data sheets).
- Robust terminals with plenty of wiring space.
- Switch plates can accommodate other clip in Trader modules or equivalents in the market.
- Full cover plate design.
- 10 Year Warranty.
- Available in white and black - please check for availability.
- PUPP2USB2GCBA (Brushed Aluminium cover) also available - please check for availability.
