

MULTI-PURPOSE ELECTRICIAN'S SCREW POUCH - SMALL

An innovative new product that came about because of the tendency of Sparkies to just put small pieces such as screws, saddles, bolts, BP connectors etc in their pockets.

These are hard to get to, often lost or spilt and nearly always end up in the washing machine at home.

The new CABAC screw pouch was inspired by rock climbing chalk bags, the perfect example of needs define innovation. A perfect pouch to throw the little fiddly bits, that we would normally have in our pockets or tool pouches, which promptly become lost or difficult to reach in the depths of a pocket.

You could have one of these for each of your most used fiddly bits and simply clip it to your belt when you need them. The draw string top ensures you don't loose them in a roof space, and the top mount carabiner helps the pouch to stay vertical when you lean over or climb through a roof, further limiting spillage.

Best part is at the end of the job, simply place it away for when you next need those fiddly bits - you could have one for each type.

SPECIFICATIONS:

- Material: 600/1680 Denier waterproof fabric
- Length: 150mm
- Width: 50mm
- Height: 50mm
- Storage: 1 pocket approximately the size of a beer can with drawstring enclosure
