

WBM10I-MB

Mechanism 10A intermediate MB

Technical characteristics

Architecture

Type of control unit	rocker
----------------------	--------

Configuration

Switch mode	intermediate
-------------	--------------

Main electrical features

Nominal voltage	250 V
-----------------	-------

Electric current

Rated current	10 A
---------------	------

Installation, mounting

Installation mode	RotoLoc ®
-------------------	-----------

Connection

Terminal	terminals accommodate 4 x 1.5 mm ² cable
Type of connection	with screw terminals
Type of connection	Screw connection

Identification

Main design line	Mechanisms
------------------	------------
