Experience the Future of Bathroom Heating

Whether you're building, renovating or upgrading, Domus Bathroom Heaters are engineered to deliver the perfect balance of warmth, ventilation and convenience. Combining advanced PTC heating technology, intelligent controls and premium lighting, every model is designed to enhance everyday living.

PTC Technology

Smarter Heating. Greater Efficiency.

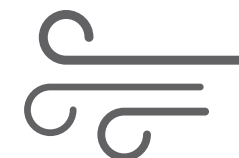

Advanced PTC (Positive Temperature Coefficient) technology delivers rapid warmth while automatically regulating temperature output. Unlike conventional heating elements, PTC technology improves efficiency, enhances safety and provides more consistent comfort.

Fast heat-up • Energy efficient • Self-regulating
Reliable performance • Long service life

Patented Heat Breeze Technology

Exclusive Comfort. Patented Performance.

Exclusive to Domus in Australia, Patented Heat Breeze Technology combines heating and extraction in one intelligent system. By warming the room while helping remove moisture and condensation, it creates a healthier bathroom environment and helps reduce mould and mildew growth.

The Domus Difference

Designed for Australian Homes.

Every Domus Bathroom Heater has been developed with Australian lifestyles in mind. From powerful airflow and rapid heating to intuitive controls and modern aesthetics, every feature is engineered to deliver superior comfort.

Warmer bathrooms faster.

Reduced condensation.

Simple operation.

Contemporary design.

Backed by a 5-Year In-Home Warranty.

Range Overview

Find Your Perfect Solution

From premium new builds to simple retrofit upgrades, Domus offers a bathroom heater solution for every project.

Signature

Advanced technology and 6-in-1 functionality.

Select

Outstanding performance and value.

Retrofit

Designed to replace traditional infrared heaters with ease.

Technology That Works Smarter

Up to 6-in-1 Functionality

Heating, extraction, circulation, drying, lighting and sway functionality in one streamlined solution.

Domus Innovation

Digital Temperature Display

Monitor room temperature at a glance with a premium integrated display.

Oscillating Sway Function

Distributes warm air more evenly for improved comfort and coverage.

Mode Colour Indicators

Instant visual feedback showing active operating modes.

Advanced Safety Feature

Automatic two-hour shut-off for added safety and peace of mind.

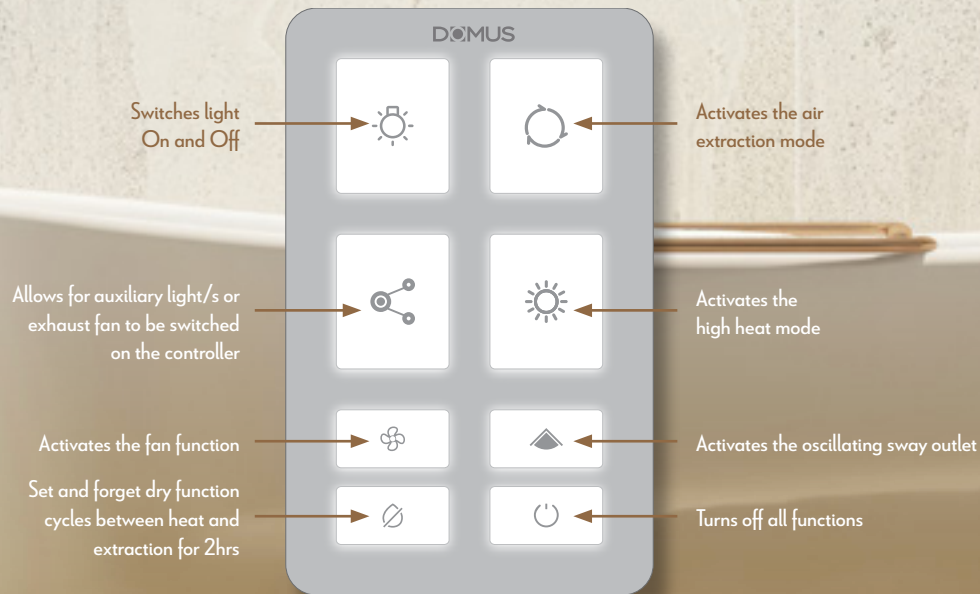

Digital Wall Controllers

Simple one-touch operation with intuitive control of every function.

Intelligent at Your Control Your Fingertips

*Black and white Horizontal
Switchplate Film Covers*

One Touch. Total Control.

Take complete control of your bathroom environment through a sleek, intuitive interface. Domus Digital Wall Controllers bring heating, ventilation, lighting and drying functions together in one easy-to-use system.

Feature Highlights

- Digital Temperature Display – Monitor room temperature in real time.
- Mode Colour Indicators – Instantly identify active operating modes.
- Dual Heat Settings – Select the ideal level of warmth.
- Automatic Dry Mode – Helps reduce condensation and moisture.
- AUX Function – Control compatible auxiliary lighting or ventilation.
- One-Touch All-Off Function – Convenient shutdown of all functions.

Easier Installation

Domus Digital Wall Controllers are designed with simplified wiring in mind, requiring only two cores for operation on compatible models. This innovative approach reduces installation complexity and makes upgrading to a modern bathroom heater easier than ever.

New
